DIRECTORS NOTE

What was your favorite book when you were a child? Did you know it by heart? I know I had Dr. Seuss's Green Eggs and Ham memorized when I first started to read. I couldn't recite it to you now, but I remember knowing exactly what the next page said before I even got there.

The story of Alice By Heart brings us into the world of Alice Spencer—a girl caught in the middle of the London Blitz of the early 1940's. The only thing she has to hold on to is her favorite book, Alice in Wonderland, which she has read so many times she knows it by heart. When everything around her is changing, the one constant she has is her book.

This is exactly why I chose this show for this particular class. As they are preparing to leave high school and coming to terms with all of the changes life is about to throw at them, they have had this one constant all year—the promise of a beautiful and heartbreaking show that they get to bring to life. I am immensely proud of this class of musical theatre majors. They began their high school career in the throws of COVID, taking dance class and theatre class from a webcam in their homes, and took it all in stride. They have grown so much over the last four years and I believe this production is a true testament to the work they have done here. As their time here is coming to an end I hope they remember that it isn't about "how much time, it's how we use the time."

We hope you enjoy coming on this journey "down the hole" with us!
