DIRECTORS Note

"A rock show in the Black Box?" they said, "You must be crazy!" they said... and they might be right, but we did it anyway!

The story of We Will Rock You drops us into a world where technology has taken over and live music no longer exists. We follow our heroes on their journey to save Rock 'n' Roll as we know it! Using the music of Queen of course.

In a time where the silly story of this musical feels more relevant than ever, the students in this musical theatre 4 class have taken on the challenge of this campy and goofy script and elevated it to new heights. They started rehearsal before school even started, learned new vocal techniques, memorized multiple different styles of choreography, and spent countless hours memorizing lines, all while remaining kind and supportive of each other. This class has a way of lifting each other up that you don't get to see very often and it has been an honor to watch them progress through this show. They have taken every opportunity to do the silly thing, and do it with full conviction, and I couldn't be more proud of how far they have come!

I hope you have a blast hearing these Queen hits in a new way today. Oh and keep an eye out for your favorite rock stars.. I'm sure they're in here somewhere... just, maybe not how you remember them ;)
