It is the school's primary responsibility to assure that students are successful in core academic classes so that they have the basis of knowledge necessary for successful completion of Nevada graduation requirements. At all times, academic eligibility is the responsibility of the student and parent.

All student travel and auditioned performances will be governed by the following guidelines at the Las Vegas Academy:

**Procedures:**

1. Every nine (9) weeks, administration will provide teachers a list of all ineligible students. Students will be deemed ineligible for all travel and/or auditioned performances if the student earned any marks that are F’s or U’s in any class(s).

2. Students will remain ineligible for travel or to perform in auditioned performances for the next nine (9) week period; there is no probationary or grace period.

3. It is the responsibility of teachers to ensure that students participating in events are eligible. Events include travel or auditioned shows.
   - Eligibility for travel will be determined at the start of the nine (9) week period in which the travel occurs.
   - Eligibility for auditioned performances will be determined at the start of the nine (9) week period in which casting occurs.

Teachers are responsible to inform parents of student eligibility status and participation ability. For all trips that are student self-funded, the sponsoring teachers will include an acknowledgement statement in their travel information parent letter for both students and parents to sign that their travel fees may not refundable if the student is ineligible.
